👤 About Me

🎓 B.Tech Graduate in Electronics & Communication Engineering.

💡 Passionate about Data Analytics, Python Programming, Embedded Systems, and IT Support.

🚀 Completed multiple internships in:

- Python Programming
- Data Analysis
- Embedded Systems
- Internet of Things (IoT)
- Telecommunications

🌱 Currently learning:

- Python for Data Analysis
- SQL
- Power BI
- Machine Learning Fundamentals

🎯 Career Goal: To build a successful career as a Data Analyst and contribute to data-driven decision-making.

🔧 Technical Skills

Programming Languages

- Python
- SQL

- C Programming

Data Analytics Tools

- Excel
- Power BI
- Pandas
- NumPy
- Matplotlib

Databases

- MySQL

Other Skills

- Embedded Systems
- IoT
- Hardware & Network Troubleshooting
- MS Office

GitHub Stats

Projects

Sales Data Analysis

- Analyzed sales data using Python and Pandas.
- Created visualizations and generated business insights.

Power BI Dashboard

- Designed interactive dashboards for data visualization.
- Used charts and KPIs to monitor business performance.

IoT-Based Smart Monitoring System

- Developed an IoT project using sensors and microcontrollers.

Certifications

- Python Programming Internship
- Data Analytics Internship
- Embedded Systems Internship
- IoT Internship
- Telecommunications Internship
